## PROGRAMME REPORT

**Name of the Programme:** A Four Days Faculty Development Program on “Advanced Design & Manufacturing in Academics”.

**Date:** 05-10-2020 to 08-10-2020

**Details of the Resource Person:**

- **Name:** Mr.Sikandar Ali
- **Designation:** Senior Engineer
- **Department:** KEPL
- **Organization:** NTPC, Ramagundam
- **Email Id:** sikandar305@gmail.com
- **Contact Number:** 9849354469

**Objective:** Trinity College of Engineering and Technology had successfully organized A Four Days Faculty Development Program on “Advanced Design & Manufacturing in Academics”. The aim is to expose the faculty members to enhance the effectiveness of teaching and research in the manufacturing technologies. It is well known that the technologies are continuing to push the boundaries of conventional manufacturing. The traditional production layouts are slowly being replaced by “smart” and “automated” processes.

**Topics Covered:**

- Advance manufacturing methods and unconventional machining methods.
- Advanced welding technology.
- Flexible manufacturing system, Industrial automation.
- Introduction to mechatronics ,Pneumatic and hydraulic system.
- CNC machines and its programming, SCADA & Fuzzy logic.

**Outcome of the Programme:** An open feedback was collected from the faculty members and they convey that this hands-on session will enable to provide a suitable exposure to the participants on latest advancements on manufacturing with specific reference to Mechatronics and Automation. It will equip the faculty members with required skills and knowledge to improve the teaching-learning process in the related subjects of interest.

## ABOUT THE INSTITUTE

Trinity College of Engineering Technology, Karimnagar has been structured to take head on the changing trends of technology. The idea of setting up the college emerged when no other college could cater to the needs of a student in his/her endeavour to acquire wholesome education. The very strength of Trinity lies in its principles of providing the right learning environment for the student who does not have to compromise throughout the learning process of becoming global citizen. At Trinity learning pushes all boundaries of conventional thought in pursuit understanding science & Technology of in relation to the society.

## ABOUT MBA

The department offers soft-skills, case-studies, group discussions, expert Professional-Guest & Technical Lectures and Industrial Tours & Visits in addition to their curriculum which in turn provide, rich professional experience which will be helpful in their professional career and stimulate simulative behaviour in their employment career. The management course has its stand at the helm as any position in the career finally culminates in administration of management. Hence, no specific mention is needed for acquiring additional academic distinction by the technocrats for highly successful career.

### PROGRAMME REPORT

**Name of the Programme:** A Five Days Faculty Development Program on “**Modern IOT Technology tools & design for real time application**”.

**Date:** 01-02-2021 to 05-02-2021

**Details of the Resource Person:**

- **Name:** Mr.K.Sadanandam
- **Designation:** Assistant Professor
- **Department:** Electrical and Electronics Engineering
- **Organization:** Mother Theresa College of Engineering & Technology, Peddapalli
- **Email Id:** [sadanandam.kamani@gmail.com](mailto:sadanandam.kamani@gmail.com)
- **Contact Number:** 9441454995

**Objective:** Trinity College of Engineering and Technology had successfully organized A Five Days Faculty Development Program on “**Modern IOT Technology tools & design for real time application**”. The aim of this programme is to introduce the participants to the amazing world of IoT and its fascinating applications. This technology frontier (IoT) with immense engineering applications is the need for today’s industry and academia.

**Topics Covered:**

- Introduction to Sensors and IOT.
- Design of sensor network protocols including MAC and routing protocols.
- Sensor web and Cloud.
- Energy efficient protocol design.
- Communication protocols, interconnections, system design and development.
- Service Discovery and device to device communication in IOT.
- Data management and big data analytics in IOT.
- Security in IOT.
- Research issues and case studies in IOT.

**Outcome of the Programme:** An open feedback was collected from the faculty members and they convey that this program serves as a platform to train and educate the research scholars, faculty, and people from industry to interact on cutting edge technologies in this emerging area.

DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING

## ABOUT THE INSTITUTE

Trinity College of Engineering Technology, Karimnagar has been structured to take head on the changing trends of technology. The idea of setting up the college emerged when no other college could cater to the needs of a student in his/her endeavour to acquire wholesome education. The very strength of Trinity lies in its principles of providing the right learning environment for the student who does not have to compromise throughout the learning process of becoming global citizen. At Trinity learning pushes all boundaries of conventional thought in pursuit understanding science & Technology of in relation to the society.

## ABOUT EEE

Electrical engineering is a field of engineering that generally deals with the study and application of electricity, electronics, and electromagnetism. Electrical engineers deal with the energies from their sources to our homes, factories, offices, hospitals, and schools. It is impossible to visualize the world without electricity. There has been rapid advancement in generation, transmission and distribution technologies, opening up new frontiers. The department initiated developmental activities in the emerging areas of Renewable energy sources like solar energy, wind energy etc.

## MAIN OBJECTIVES OF THIS FDP

The aim of this programme is to introduce the participants to the amazing world of IoT and its fascinating applications. This technology frontier(IoT) with immense engineering applications is the need for today's industry and academia.

### Topics Covered:

- Introduction to Sensors and IOT.
- Design of sensor network protocols including MAC and routing protocols.
- Sensor web and Cloud.
- Energy efficient protocol design.
- Communication protocols, interconnections, system design and development.
- Service Discovery and device to device communication in IOT.
- Data management and big data analytics in IOT.
- Security in IOT.
- Research issues and case studies in IOT.

### REGISTRATION

There is NO Delegation Fee. Maximum Number of participants are allowed.

Confirmation of the participation will be communicated through phone or e-mail. Selection of the participants will be based on First Come First Serve Basis.

The interested candidates are here by requested to send their Registration form or personal details in person or through Email.

## PROGRAMME SCHEDULE

### 01-02-2021:

09.30 AM to 10.00 AM Inauguration. 10.00 AM to 11.00 AM Art of teaching develop a student Centric Classroom. 2.00 PM to 5.00 PM Teacher Leadership Effective facilitation.

### 05-02-2021:

- Balancing Personal and Professional Goals via Effective Prioritization.

- Presentation and Valedictory.

### PROGRAMME REPORT

**Name of the Programme:** A Five Days Faculty Development Program on “VLSI Design and Modeling”.

**Date:** 03-05-2021 to 07-05-2021

**Details of the Resource Person:**

- **Name:** Dr.D.Ravi Kiran Babu
- **Designation:** Professor
- **Department:** Electronics & Communication Engineering
- **Organization:** Vivekananda Institute of Technology And Science, karimnagar.
- **Email Id:** [drkbabu1@gmail.com](mailto:drkbabu1@gmail.com)
- **Contact Number:** 9949678329

**Objective:** Trinity College of Engineering and Technology had successfully organized A Five Day Faculty Development Program on “VLSI Design and Modeling”. The aim of this FDP is to provide research aspects and solutions to the various problems related to the VLSI Design & Modeling.

**Topics Covered:**

- Evolution of Electronics & VLSI Design.
- VLSI Design isolation, Oxide isolation, Diode Isolation, Building blocks, Layout of Passive element.
- Resistor geometry, Power dissipation, Power density, Tolerance.
- Design of Silicon Integrated circuits, Concept of buried layer, Initial Artwork, Isolation Diffusion.
- Analytical modelling of MOS Devices in VLSI, Deep sub-micron modelling, Advance MOSFET Design Structure.
- CMOS Digital IC Design, Threshold Voltage of Digital IC, Inverter Design.

**Outcome of the Programme:** An open feedback was collected from the faculty members and they convey that the program was extremely helpful for covering the fundamental concepts as well as latest CAD TOOLS (Mentor Graphics & Silvaco) and to generate more open problems for research in related areas.

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

## ABOUT THE INSTITUTE

Trinity College of Engineering Technology, Karimnagar has been structured to take head on the changing trends of technology. The idea of setting up the college emerged when no other college could cater to the needs of a student in his/her endeavor to acquire wholesome education. The very strength of Trinity lies in its principles of providing the right learning environment for the student who does not have to compromise throughout the learning process of becoming global citizen. At Trinity learning pushes all boundaries of conventional thought in pursuit understanding science & Technology of in relation to the society.

## ABOUT ECE

It has an array of courses for students to choose and study such as power electronics, information technology, electronic hardware and software, automation, robotics and control, communications, radio and television, computer engineering, solid – state devices, microelectronics, VLSI and other circuits & systems used in varying application ranging from simple circuits to sophisticated digital satellite systems

## MAIN OBJECTIVES OF THIS FDP

The aim of this FDP is to provide research aspects and solutions to the various problems related to the VLSI Design & Modeling.

### **Topics Covered:**

- Evolution of Electronics & VLSI Design.
- VLSI Design isolation, Oxide isolation, Diode Isolation, Building blocks, Layout of Passive element.
